RUBBER STABLE & COW MATS

- According to scientific data, standing for a long period of time is stressful and fatiguing and the use of rubber anti fatigue mats will help reduce the tiredness and stress.
- Non-Slip surface offers increased traction and superior cow comfort, even when wet, to allow cows to maintain a natural sure-foot gait.

- Anti-fatigue mats are widely used in all sorts of working conditions where lengthy periods of standing are required.
- These mats are designed to reduce fatigue caused by prolonged standing on a hard surface.
- Use of anti-fatigue mats decrease foot and lower limb disorders caused by standing in one position for long periods.

PVC TUFTED COIR MATS AND ROLLS

- The matting is offered in natural, semi-bleached and bleached shades in 1 to 2 meter width and up to 25 meter length.
- Despite being biodegradable, it is one of the most durable materials there is. Place it in compost and it will break down easily but place it outside your door and it will last and last. Coir is absorbent, so it works best undercover or in a dry area.

- PVC tufted (backed) mats and rolls are made by tufting natural coir fiber into PVC backing.
- The vinyl backing provides anti slipping and ensures very low fiber, one of the few units in india equipped with its own dual line manufacturing facility capable of offering vinyl backed (pvc tufted) cut fast coir brush matting rolls in thicknesses varying from 13 mm to 30 mm.
